Hospice Happenings

JANUARY 2018

Happy New Year to all from the Olds and District Hospice Society! We want to thank-you for all the tremendous support this past year. O&DHS is used as an example throughout the province for what rural community involvement can accomplish in areas of hospice and palliative care. In celebration of the new year, we will pursue fresh ideas and remain committed to spreading awareness and providing support to all in need. For those interested, a copy of the 2017 President's Report is available on our website; furthermore, additional links on our website will direct you to our Facebook page, related podcasts, and other articles that will stimulate conversation about hospice care. Being part of a dynamic organization enriches a person's life and encourages growth, and for those interested we will offer volunteer training on January 26th and 27th, 2018. If you or someone you know would like to get involved please contact our office 403-586-9992. We again thank-you for all your support and we wish you and yours all the best in 2018!
